The National Institutes of Technology (NITs) are premier autonomous public technical and research universities located in India. They are governed by the National Institutes of Technology Act, 2007, which declared them as institutions of national importance and lays down their powers, duties, and framework for governance. The National Institutes of Technology Act, 2007 lists thirty-one institutes. Each NIT is autonomous, linked to the others through a common council (NIT Council), which oversees their administration and all NITs are funded by the Government of India.

THE TOP PRIVATE COLLEGES

The higher education system in India include both private and public universities. Public universities are supported by the Government of India and the state governments, while private universities are mostly supported by various bodies and societies. Universities in India are recognized by the University Grants Commission (UGC), which draws its power from the University Grants Commission Act, 1956.
